Dual Action Rx

- ◆ Promotes muscular relaxation, recovery, and healing
- ◆ Enzyme content supports digestion

Who Needs Dual ActionRx?

Anyone suffering from acute injury or experiencing muscle soreness and discomfort due to overexertion, as well as those with digestive issues related to food intolerances will benefit from taking Dual ActionRx.

How Does It Work?

The enzymatic ingredients of Dual ActionRx support hormone processing, healthy digestion, as well as immune and circulatory functions. These carefully selected enzymes function within numerous protein metabolism pathways.

Dual Action Rx works in two major ways for your body. When taken with food the supplement acts by breaking down food in your GI tract.

When taken without food or on an empty stomach the ingredients act as an anti-inflammatory reducing acute inflammation by breaking down dead tissue in the area of injury.

Beneficial Ingredients:

- Pancreatin 4x**- Replenish digestive enzymes
- Bromelain**- Plant enzyme reduces pain and swelling
- Papain**- Plant enzyme that reduces swelling
- Lipase**- Enzyme that catalyzes and breaks down fats to fatty acids
- Amylase**- Converts starch to sugar
- Trypsin & Alpha Chymotrypsin**- Enzymes that help reduce swelling
- Superoxide Dismutase**- Powerful antioxidant
- Catalase**- Antioxidant

Dosing:

As dietary supplement: 1 capsule with food.
Anti-inflammatory: 5-10 at onset on empty stomach, then 2 tablets every two hours first day; then 1 tablet 3x daily thereafter.
