## MetabolicRx

- ◆ Blend of vitamins, minerals, & compounds to support the metabolism & healthy weight
- ◆ Packed with powerful antioxidants, amino acids, & plant factors

### Who Needs MetabolicRx?

Anyone who endeavoring to implement permanent lifestyle changes especially with regard to diet & exercise will benefit from the metabolism support **MetabolicRx** offers.

This specially formulated multi assists in appetite control & weight management by metabolizing carbs and fats effectively, promoting a healthy body composition.

### Beneficial Ingredients:

**Pomegranate Seed Extract:** Powerful antioxidant shown in studies to support healthy inflammatory response & improve insulin sensitivity.

**Berberine:** Potent hypoglycemic agent that regulates glucose and lipid metabolism.

**ALA:** Strong antioxidant, enhance the body's ability to support healthy blood sugar levels in patients with glucose dysregulation.

**Green Tea Extract (EGCG):** Inhibits fat cell proliferation & increases fat-burning for fuel & caloric expenditure.

**Vanadium:** Necessary element for blood sugar dysregulation.

**Vitamin B complex:** High dosage B vitamins including 12.5 mg Thiamin, 10 mg Riboflavin, 75 mg Niacin, 10 mg B6, 400mcg bioavailable folate, 25 mcg B12.

**Taurine:** Reduces insulin resistance.

**Coenzyme Q10:** Necessary for glucose metabolism

**Vitamin E & Selenium:** Essential nutrients & antioxidants thought to assist in glucose balance, especially in diabetics.

**Carnitine:** Increases fat metabolism & improves insulin action, important for those with metabolic disorders.

**Chromium:** Converts to a factor involved in the increase of insulin action at the cellular level.

**Forskolin:** Plant-derived substance that decreases blood sugar levels by helping regulate cellular energy status.

**Biotin:** plays a role in stabilizing blood sugar levels through biotin-dependent enzymes and initiate intracellular glucose into the cell.

**Baikal Skullcap:** shown to lower blood glucose levels

**Dosing:** 3 capsules 1-2x daily with meals

\*Not recommended for those taking blood thinners, blood pressure medication, or those who are pregnant, lactating, or have polycystic kidney disease.
